Kserkso I. (519.- 465. g. pr. Krista)

Povijest čovječanstva puna je ratnika i ratova, a njihovi prethodnici su faraoni, kraljevi, carevi, sultani, diktatori i licemjerni političari.

Jedan od njih je i perzijski kralj Kserkso I. koji je poznat kao veliki osvajač, ali i poraženik čiji najveći porazi su vezani s vodom, i to kod Salamine 480. g.pr. Krista gdje je poražen od Grka.

XERXES I (519–465 BCE)

Human history is full of warriors and wars, with rulers like pharaohs, kings, emperors, sultans, dictators, and hypocritical politicians.

One of them was Persian King Xerxes I, known as a great conqueror, but also for his defeat at sea—especially at the Battle of Salamis in 480 BCE, where he was defeated by the Greeks.
